Agenda Item #4: Allison Zach, Nebraska Invasive Species Program. Allison Zach gave an overview of the Nebraska Invasive Species Program. Allison discussed the Ash Borer and Japanese Beetle and the infiltration into the Omaha area and the beginning of cases in the Lincoln area and the partners she works with. She showed examples of the insects and the bark after the trees had been infested. Discussion between Allison and the board members continued and she explained that once this has occurred you could treat the tree but actually just replanting and eliminating the problems would have more positive results but there were alternative treatments that would prolong the life of the tree. Talked about Eastern Red Cedar and related problems. Allison brought up topic of Zebra and Quagga mussels and the impact on the environment. Ms. Johnson asked Ms. Zach if she could run an article in the newsletter and Ms. Zach responded positively to the request.

Jeanine Lackey and Jim Beebe were present to talk about projects of Fontenelle Forest and the impact upon the area. Ms. Lackey gave an overview of what they have been doing with Trust funds and how the improvements have resulted in positive changes. She talked about the controlled burns they have had and the training required to participate in a controlled burn project.

Agenda Item #3: Public Information Update: Ms. Sheila Johnson, Public Information Officer, presented the public information goals and a Communication Plan for 2017-2018. Touched on the main points in the Public information Goals. The budget plan was reviewed and given with the direction as discussed at the July 2016 board meeting and has been approved by the Finance Committee but since that time $41,000 was taken away from the budget by the Legislature. Money also went to aid in the Trust database with Marie Gregoire’s assistance as well as Stonefin our online portal. We have continued to purchase new promotional material for events (the State Fair, advertising etc.). Short term
goals have not changed too much. Theme this year is "Ideas into Action", project and implementation throughout the year. Also a goal is to publicize what the Trust has done. The Grantee Seminar was held earlier this year. We have continued to purchase some items for promotions. The press releases continue to be worked on from the grantee seminars, events, State Fair and Ferguson House events. Allison has done a great job of maintaining a steady smooth program and demand has remained high. There has been a decrease in press releases and part of the reason is fewer grants with larger amounts were applied for. Grantees have been using social media because it is free. Short releases used more than the longer releases. More updates on broadcast and advertising strategies. Next year 25th Anniversary for the Nebraska Environmental Trust and we are going to work with the Lottery but also working on an event on the 25th Anniversary exhibition on the 1st floor rotunda of the Capitol so additional promotions will be arranged for this event also. TAC Review function may coincide with anniversary.

Database is up and running for trial run and ready for checking to make sure ready for implementing the 2nd stage of the database portal to be ready in full capacity for next year grant cycle.

The Trust plans to continue with press releases as before with key events, appointments, grant information and related points of interest on the Ferguson House and the announcements for grant projects.

**Agenda Item #5: Update on the Rules and Regulations and Bylaws of the Trust.** Mr. Brohman began the discussion going over why we have had to resubmit the Rules and Regulations and Bylaws of the Trust. In the previous submission it did not contain Statement of Fiscal Impact or where it could be found. Mr. Brohman had a review of changes which he pointed out in the discussion. Mr. Brohman also went over the Bylaws in a discussion to review the changes.

**Agenda Item #6: Public Comments/Good of the Order.** Mr. Hellbusch brought up the subject of the Eastern Red Cedar control and attacking the invasive species problems. Discussion was held and it was decided that an Ad-Hoc Committee would be assigned.

**Motion by** Mr. Macy and seconded by Mr. Peterson to have an Ad-Hoc Committee for the Eastern Red Cedar issue.

**Voting Aye:** Mr. Bowen; Mr. Douglas; Dr. Williams; Mr. Fassett; Mr. Macy; Mr. Hellbusch; Mr. Peterson; Mr. Dunn; Mr. Krohn; Ms. Vinton Mr. Christen and Ms. Lauritzen. **Motion Carried.**

A final report and summary was passed around and a summary of the Trust’s comments was described. There was discussion about a new law passed in 2017 that would require State agencies to update the Legislature in writing on progress made towards any finding in an Auditor’s report. The board directed staff to follow up on that issue.

Respectfully submitted,

Mark A. Brohman
Executive Director
