

## **Habitat and Seed Drill Survey Instructions**

The enclosed Habitat and Seed Drill Survey is to be completed by all grantees that are purchasing drills. Please read through the survey to familiarize yourself with the type of information that we would like you to track during the grant period.

We will require the completion of this survey at the end of the grant period. It should be filed as part of your final report which will be due at the end of the grant period next June.

Many of the activities listed should also be discussed in your quarterly reports to the Trust and included in your in-kind/match portion of the report.

**Please contact our office if you have any questions about the survey.**
